

MLAB

MeasurementLab.net

Open Internet Measurement

When your Internet connection doesn't work as expected, how can you tell whether the problem is caused by your connection, the application or something else? Answering this question and others like it is surprisingly difficult.

That's the purpose of Measurement Lab.

M-Lab is a consortium of research, industry and public-interest partners dedicated to:

- Providing an **open, verifiable measurement platform** for global network performance
- Hosting the **largest open Internet performance dataset on the planet**
- Creating **visualizations and tools** to help people make sense of Internet performance

Ways to Get Involved

Contribute to M-Lab

- M-Lab welcomes the participation of industries, institutions, and researchers who would like to help expand the platform and ensure its growth and success.

Run M-Lab Tests

- The easiest way to contribute to M-Lab is to run our tests on your own connections, and encourage others to do so.
<http://www.measurementlab.net/tests>

Use the Data

- We want people to use M-Lab data in new ways, and are actively seeking partners to do data analysis, visualizations, and hosts for new sites. Find out more on our website
<http://www.measurementlab.net/contribute>

MLAB  **Measure**

<https://goo.gl/kLBbmR>

Chrome App - Run M-Lab tests in your browser.

- Help translate : <https://www.transifex.com/otf/mlab-app/>
- Port to OpenWeb App
